

A circular logo with a metallic silver center and a grey outer ring. The text 'XM 360' is centered in the silver area. The background of the entire image features a dark grey, circular, gear-like pattern with concentric rings and radial lines.

**XM
360**

KNOWLEDGE IS POWER

ALPHA XM360 | TAKE CONTROL OF YOUR NETWORK

XM
360

Alpha XM360 builds on Alpha's long history of innovation by providing the broadband industry with the **first full-featured, web-enabled network maintenance management solution.**

Network operators will have the power to extract all available power supply service data and generate practical, **meaningful, real-time diagnostic reports**, saving money and enhancing network upgrade planning.

The **X-Tractor module standardizes preventative maintenance** procedures by electronically collecting vital network information, generating certified PM reports and uploading reports to a secure database.

The **Executive Reports Suite is an intuitive web-based tool** that analyzes and compiles maintenance data, and provides high-level reports on the status of the OSP network.
